LOAF BREAD MIX

backaldrin®

DESCRIPTION:

Clean label, artisan, sourdough, gluten-free and high fiber breads are some of the products trending in the baking industry. Health and wellness have and continue to be important considerations impacting consumer purchasing decisions.

Consumers across the spectrum—millennials, people with digestive conditions, those following a low-calorie diet, parents mindful about children's well-being, and others—are demanding safer, healthier baked goods that provide nutrients, health benefits and help improve the overall quality of life. In backaldrin we launch a unique solution for baking healthy and enriched loaf bread.

OUR LOAF BREAD MIX SET INCLUDES:

- Toppings for garnish (oatmeal/sesame/sunflower seeds)
- Laminated plastic bread bags for packaging
- Bread clips
- Adhesive Labels with the information of the bread

KORNSPITZ MIX

backaldrin®

DESCRIPTION:

Contains a balanced mix of high-quality raw food materials, primarily regionally grown: rye and wheat flour, rye, wheat and soy meal, linseeds and salt. In particular, a Kornspitz® is characterised by its high proportion of crushed cereal, which contains all the goodness of the grain.

The dietary fibre content is more than 7%, and is thus higher than most breakfast cereals. It also contains many of the B vitamins, minerals (e.g. calcium and phosphorus), as well as trace elements like iron, copper, magnesium and zinc. This well-balanced mix of valuable ingredients makes this loaf popular with foodies and nutrition-conscious consumers alike.

			
Mix	Water	Yeast	Toppings
1 kg	600 ml	40 g	16.6 g for piece

ACTIPAN MIX

backaldrin®

DESCRIPTION:

Actipan® was developed by backaldrin for athletes and active people in particular. Through the special selection of ground cereal and legume sprouts, it offers a high proportion of vitamins, minerals, trace elements and polyunsaturated fatty acids.

The whole grain bread is also a rich source of carbohydrates and energy with a high fibre and protein content. Actipan® is suitable for all meals - at breakfast for the ideal start to the day, as an in-between snack or as a delightful end to the day at suppertime.

			
Mix	Water	Yeast	Toppings
1 kg	600 ml	40 g	16.6 g for piece

PUR PUR MIX

backaldrin®

DESCRIPTION:

The striking purple colour and valuable ingredients make purple wheat a remarkable crop. The husk of the purple wheat grain contains anthocyanins (phytochemicals), which give the bread its unmistakable colour. Contains valuable ingredients, e.g. purple wheat wholegrain flour, wholegrain rye flour, rye sourdough, soya wholemeal, pumpkin seeds, walnuts and potato flakes.

Pur Pur wheat, a grain rich in tradition, brings interesting variety to the range of otherwise conventional grains. It provides 10 times more anthocyanins (secondary plant ingredients which serve as antioxidants) than in normal wheat.

1 kg	600 ml	40 g	16.6 g for piece

MAMMA MIA MIX

backaldrin®

DESCRIPTION:

This loaf contains a large amount of dietary fiber (the share of dietary fibers is more than 6%). This mix has been specially enriched with those vitamins and minerals often in short supply in women's bodies. Some 100g of Mamma Mia (about 1½ pieces) supplies 20% of the daily recommended amount of calcium, magnesium and iron, and 15% of vitamin D and folic acid. This innovative baked good from Backaldrin also has a winning taste: mild and wonderfully juicy.

It contains such highly-valuable grains as wheat and rye meal - plus a range of such oilseeds as sunflower seeds, sesame and flax.
